## Vibe FX

Discrete, pinhole style fixed downlight for contemporary interiors. The inner snoot adds a touch of elegance and enhanced visual comfort. Optimum colour quality and consistency is achieved via the integrated Tridonic LED light engine, making Vibe perfect for residential and hospitality applications.

AR.677

## Vibe AJ

With matching dimensions to Vibe FX, this adjustable downlight perfectly compliments the fixed version, allowing users to focus the light exactly where it is needed. The collection of body colours, light source options and range of accessories makes Vibe the obvious designer's choice.

AR.681

## Vibe Snoop

Discrete, ceiling recessed downlight with inner rotatable, titable snoot for controlled light distribution, optimum aim and unparallelled visual comfort. The integrated Tridonic LED engine offers consistent, high quality light, which is offered in a range of outputs, beam angles and colour temperatures, perfectly matching the rest of the VIBE collection.

# MEET THE TEAM

AR.678

## Vibe Mini FX

Discrete, pinhole style fixed miniature downlights to compliment the VIBE FX. The Mini FX is IP65 as standard, for use in bathrooms, wet rooms and spa applications, making this perfect for hotel and residential projects alike. The inner snoot achieves an elegant look as well as enhanced visual comfort, whilst its punchy lumen package,

AR.679

## Vibe Mini AJ

With matching dimensions, the VIBE AJ Mini downlight perfectly compliments the fixed version, whilst allowing users to focus the light exactly where needed. Its punchy light engine delivers an incredible lumen package, whilst retaining minimal physical dimensions.
